Teachings of the Ascended Masters®

SUMMIT UNIVERSITY®

He who has the greater sense of victory will win!

And we are going to win!

--Saint Germain, July 4, 1992

Never have another thought but victory!

Is that humanly possible? The ascended masters tell us in resounding terms it is, even for imperfect human beings living in an imperfect world. All we need to do to rise above our daily challenges, disappointments and occasional failures is to embrace the victory consciousness!

The masters have released tremendous teachings on how to connect with the very source of victorious living: our Mighty I AM Presence. They teach us how to access this limitless reservoir of conscious divine power and let its radiance govern our lives, turning us into spiritual adepts in the process.

In this seminar we'll study advanced teachings by Elizabeth Clare Prophet on *Unveiled Mysteries*, Godfré Ray King's classic on how to connect to your Divine Self. These empowering teachings, combined with SU's acclaimed seminar "The Victory Way of Life," will help you deepen your understanding of the victory consciousness the way the ascended masters see it.

Taken together, these two components will make this one of SU's most practical programs ever, designed to help you take a major leap forward on your spiritual path. Bring one thing, great or small, you'd like to accomplish, resolve or gain mastery over, and leave SU with a blueprint for your victory and a toolkit with twelve personalized tools for tapping into the invincible power of your I AM Presence like you've never done before.
